Recession Aware Motorhome Sales from Just go

The Just go annual ex-hire fleet sale now on!

Just go, the leading [motorhome hire](#) company in the UK is announcing its annual ex-hire motorhome fleet sale. Just go has 35, 2010 and 2011 Rimor motorhomes up for grabs! Prices start from £23,995.

Nick Roach, Managing Director of Just go commented: 'Selling 'nearly new' motorhomes enables our customers to purchase practically new vehicles at approximately 30% below the new RRP. The 2011 models have as little as 10 - 15,000 miles on the clock.'

Why buy a Motorhome from Just go?

When an ex-hire motorhome is purchased from Just go, it can literally be picked up and taken camping. This is because it is the complete package. As well as the standard manufacturers equipment, there are lots of added extras including, XBOX DVD players, CD players, air conditioning, reversing sensors and microwaves in each of the vehicles.

The vehicles also come equipped with all the usual stuff needed when you go camping. For example fresh water hose, an electric 'hook up' cable as well as all the crockery, glasswear, cutlery, pots and pans.

Why does Just go choose Rimor motorhomes for its hire fleet?

For several reasons! Firstly, the quality of the build. Each motorhome is well laid out, comfortable and robust. Rimor is one of the leading motorhome manufacturers in Europe and all of its vehicles are built to meet the most stringent international safety and environmental standards.

Secondly, the motorhome living area is built onto either a Fiat or Ford chassis. Which are both easy to drive, reliable and economical. Just go works closely with Ford and Fiat to ensure that each vehicle is regularly inspected and maintained.

Another reason, but by no means least, is the Rimor aftersales parts service. Rimor has a very good parts department ensuring Just go can order any part for a particular motorhome from the smallest switch to a new window.

The Just go servicing & maintenance history

Buying a motorhome is a big decision. That's why it's vital to make sure that the vehicle purchased has been properly maintained throughout its life. At Just go, because its motorhomes are used for hire purposes, its priority is to make sure that each vehicle is in peak condition, all of the time.

Each vehicle undergoes rigorous checks throughout its time with Just go. It starts with each vehicle having a Pre Delivery Inspection (PDI) carried out by Ford or Fiat before entering the hire fleet and then they are regularly serviced and maintained by Ford/Fiat dealers. Just go also has a yearly gas, electric and damp inspection and certification programme which all the motorhomes undergo.

In addition to the full service history record, customers will receive when purchasing a Just go motorhome, they will also be given the remainder of the manufacturer's 5 year 'water ingress' warranty which guarantees the seals on the motorhome and the build quality.

Refurbishment

When a Just go motorhome comes off the hire fleet to be sold, it is de-branded of its hire signage and undergoes an extensive refurbishment programme to return it to as close as possible to an 'as-new' condition. Just go can also arrange for extras to be added e.g. awnings, roof lights etc.

All the motorhomes for sale are listed on the Just go website found at www.justgo.uk.com.
