Harrogate, York & the Yorkshire Dales

Harrogate became popular in the 17th and 18th centuries when the growing popularity of the mineral rich spring waters created an influx of wealthy but sickly visitors. As a result Harrogate has some beautiful architecture, parks and gardens to discover. If the walking gives you an appetite head to Betty's Cafe Tea Rooms, a local institution that has been supplying a traditional English tea with Swiss influences for over 90 years.

Harrogate serves as a gateway to enter the Yorkshire Dales, one of the 15 National Parks of Britain. The scenery is characterised by rolling upland pastures separated by dry stone walls and exposed limestone. The limestone makes the area a haven for cavers and several networks are open for the public to visit.

York became a significant settlement in Roman times but currently is best known for its medieval architecture, of which it has some remarkably preserved examples. In the surrounding area there are numerous stately homes, Castle Howard among them and some excellent museums, namely the National Rail Museum and Yorkshire Air museum.

Places to visit

Forbidden Corner

This 4 acre garden is great fun for adults and children alike with its maze of passageways, tunnels, follies and secret doors. Adults have to crawl to get through tunnels that shrink down to tiny doors and there are statues waiting to give you a fright. Entry is limited, so book ahead but its highly recommended for anyone with an imagination.

Address: The Forbidden Corner, Tuppill Park Estate, Coverham, Middleham, Leyburn, DL8 4TJ

Fountains Abbey

Fountain's is one of the most atmospheric sites in the Dales and a world heritage site. There is a deer park, a lake, canals and acres of space to simply sit and enjoy the setting. For more information about its inhabitants you can go to the visitor centre housed in the mill. Here there is a quiz tour for the kids and audio tours for adults.

Address: Fountains, Ripon, North Yorkshire, HG4 3DY

White Scar Cave

Fancy a bracing 80 minute walk under the national park, then head to White Scar Cave where you can experience a world of stunning rock formations and vast subterranean caverns. At 4 miles long it's the longest cave accessible to the public in the park, but bring a coat as it's a chilly 8 degrees all year round.

Address: White Scar Cave, Ingleton, Carnforth, Lancs, LA6 3AW
